

FIG.1A

FIG.1B

The diagram illustrates a mobile communication system with five cells: CELL 1a, CELL 1b, CELL 1c, CELL 1d, and CELL 1e. Each cell contains a mobile station (30a to 30f) and a base station (10a to 10f). Arrows indicate communication links between the mobile stations and the base stations. Specifically, BASE STATION 10a is connected to MOBILE STATION 30a, 30b, and 30c. BASE STATION 10c is connected to MOBILE STATION 30d, 30e, and 30f. The cells are arranged in a hexagonal pattern, with CELL 1a at the center and the other cells surrounding it.
